

MEDIA RELEASE

Finalists in the New Zealand Innovators Awards 2015 demonstrate that Kiwi innovation is thriving, with a 24 per cent increase in entries that are of world class standard.

Announced today are the finalists who represent game changing innovation from every corner of the country, with new products and services from a broad range of industries and business disciplines. Included in the finalists are an exciting range of entries, from electric farm bikes, dairy free cheese, anti-cancer treatments and free school lunches. Spoilt for choice with this year's entries – these are ordinary Kiwi's doing extra-ordinary things.

New Zealand Innovation Council CEO Louise Webster says the 2015 entrants give a real sense that Kiwi innovation is moving into the main stream, demonstrating world leading approaches to innovation with many businesses going global from day one.

In addition to the innovative products and services entered, one of the biggest changes this year was a rise in entrants focused on making the world a better place. "We saw a new wave of innovative businesses focused on solving social issues. These organisations are still profit making entities, but are driven by a purpose to help solve the world's problems and have a global impact," says Ms Webster.

Bayer New Zealand Managing Director Holger Detje, says the quality of entrants is impressive. "The aim has always been to recognise great Kiwi talent and the commercialisation of innovative New Zealand products and services, and the awards certainly achieve that."

Other foundation sponsors include the New Zealand Innovation Council and Idealog, as well as category sponsors Alcatel Lucent, ATEED, AUT University, Chorus, Datamine, James & Wells, 3M, NZTE, Paymark, Real TV, RadioLIVE, Yealands Family Wines, Yellow, All Good Organics and DB.

The winners of the New Zealand Innovators Awards 2015 will be announced at the awards event held at **The Cloud, Queens Warf on Wednesday October 21**. For more information and to purchase tickets to the awards event, go to www.innovators.org.nz or call 0800 2 INNOVATE (46668).

Science For A Better Life
